-JMenuItem menuLogout
-JMenuItem menuProfile
-JMenuItem menuCreateUser
+HeaderPanel(username: String, isAdmin: boolean)
+setToggleSidebarAction: ActionListener)
+setLogoutAction(action: ActionListener)
+setUpPasswordAction(action: ActionListener)
+setCreateUserAction(action: ActionListener)
Contains (NORTH)
«Frame»
MainFrame
-Logger LOGGER
-Dimension MIN_DIMENSION
-CardLayout cardLayout
-JPanel mainPanel
+MainFrame()
+addView(view: JPanel, key: String)
+showView(key: String)
+showView()
FrontendApplication
+main(args: String[])
-getRegisterController() : NavigationController
Uses it on
«interface»
NavigationService
+open()
+goToLogin()
+goTeamsA()
+goToTeamsL()
+goToProjectsL()
+logout()
Implements
NavigationController
-MainLayoutView mainLayoutView
-AuthService authservice
-IssueService issueService
-ProjectService projectservice
-TeamsService teamsService
-UserService userservice
+init()
-initMainLayoutPresenter()
+goToLogin()
+goTeamsA()
+goTeamsL()
+goToProjectsL()
+showUserPanel(String)
+showRegistrazione()
+logout()
Manages UI/Layout
Manages App Start
Uses
«interface»
MainLayoutView
-SidebarPanel sidebar
-JPanel contentPanel
-CardLayout contentCardLayout
+MainLayoutView(header: HeaderPanel, sidebar: SidebarPanel)
+toggleSidebar()
+setContentView(view: JPanel, key: String)
+showContentPanel(key: String)
«View Component»
SidebarPanel
-JButton btnHome
-JButton btnProjects
-JButton btnTeams
-SidebarPanel(actions: boolean)
-createNewButton(text: String, icon: Icon) : JButton
+setHomeAction(listener): ActionListener)
+setProjectsAction(listener): ActionListener)
+setTeamsAction(listener: ActionListener)
Contains (WEST)
Creates and Inputs
«Dialog View»
UpdatePasswordDialog
-JPasswordField txtOldPassword
-JPasswordField txtPassword
-JPasswordField txtConfirmPassword
-JButton btnSave
-JButton btnCancel
+UpdatePasswordDialog(owner: Frame, currentUser: UtenteResponseDTO)
+createPasswordLabel(parameter: String) : JPasswordField
+getOldPassword() : String
+getPassword() : String
+getConfirmPassword() : String
+setSaveAction(): ActionListener)
+setCancelAction(): ActionListener)
Reads User Info (Identity Panel)
UtenteResponseDTO
Validates Input
UpdatePasswordRequestDTO
Calls updatePass
Calls refreshUserLoc()
Calls login logic
Manage Events and UI
Creates and Inputs
«Dialog View»
UtenteAddEditDialog
-JLabelUserNameLabel lblUser
-JList userList
-JTextAreaAddedUsersPanel
-JButtonAddUserBtn
-JButtonRemoveUserBtn
-JButtonSaveBtn
-JButtonCancelBtn
+UtenteAddEditDialog(owner: Frame, mainUsers: List<UtenteResponseDTO>)
+getSelectedUsers(): List<UtenteResponseDTO>
Shows Add Logic
Shows Remove Logic
Shows Add Users
Shows Remove Members
Displays
Manages List of
Uses Cell Renderer
